Sir:

In response to the Office Action dated **December 19, 2002**, please amend the above-identified application as follows:

**IN THE SPECIFICATION:**

Replace the paragraph beginning at page 1, line 4, with the following rewritten paragraph:

C

The present invention relates to a primer composition effective in bonding an addition reaction type hydrocarbon polymer securely to various substrates. More particularly, the invention relates to a primer technology for achieving improved bonds to substrates and a technology of improving the adhesion of an addition type cured product which comprises coating a primer on a substrate and then applying an addition reaction type curable composition comprising a hydrocarbon polymer thereon and letting it cure in situ.
